The second mohair sale of the 2025 summer selling season gave us something to smile about. Following the 5% increase on the first sale, a positive second sale saw the overall indicator increase by 6%, considering that there is still an 8% shortfall compared to the same sale in 2024. A sombre moment during the sale was the heartbreaking news of Matthew Fox's passing. He was one of the strong pillars on which HF was built since its inception in 2019. He was also recognized as the best mohair auctioneer in the world. The best price of the day went to Andries Botha (Kareekrans Boerdery) of Somerset East for R710.00/kg (this was a negotiated price after the sale). This B-length, good-style summer kid tested twenty-two microns, with a clean yield of 91.2%. The best price during the sale was R701.00/kg for a C-length, good-style 21.4-micron bale with a clean yield of 90.7%. The next sale is scheduled for the 25th of March, with another big offering that will be sold in the International Mohair Exchange.
