6. VBC	0.0%

The second mohair sale of the 2024 summer selling season performed remarkably well with a 9.4% price increase. The differentiating factor was that the other buying houses also competed well in the sale. This compared to the first sale where there were only the two processors taking part. It was a big catalogue on offer but of a very high-quality standard. Also, one of the finest offerings micron-wise yet. To prove this point, the best price of the day went to a 20-micron bale with good style. Three years ago, this was unheard of, let alone the fact that the bale was a C-length with a good style. The next sale will also be quite a large sale with exceptional quality on offer. A special congratulations must go to Sias Reynolds of KAMFERSKRAAL Boerdery, Beaufort West. This noticeably big clip was well prepared, leveraging the advanced technological support provided by HF. This was one of the reasons why his best bale went for the best price of the day at R850.00/kg! This is for a good style, C-length, 20-micron bale with a clean yield of 86.5%! The next sale will be on offer on the 19th of March 2024 in the Port Elizabeth Mohair Exchange.
