----	--------	-----	--------

The fifth mohair sale of the 2023 winter selling season delivered satisfactory results under difficult circumstances. Since the previous sale's report the world economy deteriorated even further with the dangerous situation with Palestine and Israel. This scared customers in Europe. The improvement in demand was for the 29 to 31-micron group. This segment was neglected this season and it is a good sign that there was a bit of a recovery. Superior quality adults with good length also experienced an improved demand. Saying that, it is still basically the two processors competing for mohair. However, excellent quality clips still excelled in price. Theronnie van der Merwe of Jonkersnek Boerdery, Murraysburg can be immensely proud of his clip. He got the top price of the day for his best bale of 24-micron super kids at R722.00/kg! Even more impressive was his clip average. He sold 96% of his clip at an average price of R435.16/kg! This is the best average of the season. The next sale will be big, where excellent quality will be on offer, the best of the season. There is only one sale in November, and it will be held in the Port Elizabeth Mohair Exchange on the 14th.
