COMMENTS / AANMERKING:

The mohair summer selling season of 2022 started off well with a general increase of 3% compared to the previous winter sale in December 2021. This against the fact that the Rand increase in value against the USA\$ with more than 5%! In real terms the market increased with 8%. Needless to say, that the demand on all types were excellent, with all the buying houses competing. House of Fibre established itself as the only true international broker, also selling an Australian catalogue as well as a British catalogue on the same day. The next sale on the 1st of March will be bigger and of better quality on offer. The first sale of the new season will be held on the 1st of March 2022, with the scale closing date on the 17th of January 2022. Report compiled by Pierre Van der Vyver, General Manager: The House of Fibre
