Comment

The 2nd mohair sale of the 2022 summer selling season can only be described in three words, "a mighty record." It was the best average for a sale ever achieved!! It's needless to say that it went beyond expectation and there was good competition from all buyers. There was a huge price difference on average between non-RMS and RMS of over R50.00/kg on the previous sale. This shrunk today again to the normal R20.00/kg difference, because of the mohair shortage. The next sale will be substantially bigger than the 2nd sale and will be a good test for the current demand. We want to congratulate Sarel du Plessis from Oudtshoorn with his clip average of R582.57/kg and Dawid Schoeman, also from Oudtshoorn, with R836.00/kg for his best bale of kids.
